

<p><b>TABLE 12</b> <b>SUBPART X MISCELLANEOUS TREATMENT UNITS</b></p>			
<b>UNIT I.D. NUMBER</b>	<b>MAXIMUM ALLOWABLE CAPACITY</b>	<b>SECONDARY CONTAINMENT</b>	<b>PERMITTED HAZARDOUS WASTE CODES</b>
BRA-DRYR-101	Nip Containment, 120 gallons <sup>1</sup> Pan Containment, 680 gallons <sup>1</sup>	9039 gallons <sup>3</sup>	D004, D005, D006, D007, D008, D011, F999
BRA-DRYR-102	Nip Containment, 120 gallons <sup>1</sup> Pan Containment, 680 gallons <sup>1</sup>	9039 gallons <sup>3</sup>	D004, D005, D006, D007, D008, D011, F999
BRA-DRYR-201	Nip Containment, 120 gallons <sup>1</sup> Pan Containment, 680 gallons <sup>1</sup>	9039 gallons <sup>3</sup>	D004, D005, D006, D007, D008, D011, F999
BRA-EVAP-101 <sup>2</sup>	Shut-in volume, 1200 gallons	9039 gallons <sup>3</sup>	D004, D005, D006, D007, D008, D011, F999
BRA-EVAP-201 <sup>2</sup>	Shut-in volume, 1200 gallons	9039 gallons <sup>3</sup>	D004, D005, D006, D007, D008, D011, F999
<p><sup>1</sup> These volumes are approximate because brine is not expected to be collected in the dryers during operations or idle periods.  <sup>2</sup> Heat exchangers are considered part of the Evaporator Package and will not be listed as a separate unit.  <sup>3</sup> The secondary containment volume includes the floor area of the BRA with dike wall and curbs as well as PUB-SUMP-101 and 102.</p>
